Discussions, high-level panels, poster session and field visit
organised by 7 EU-funded projects!

October 24-25, 2023
Atelier 29, Brussels (Belgium)

RE-energising Europe - Sharing ideas and knowledge

This 2-day event, organised by 7 EU-funded projects (Horizon2020), will bring together on-stage speakers from the EU institutions, from the projects as well as key players from the energy market, to discuss how the work done in the past 3 years can support RE-energising Europe. Key topics related to energy in Europe will be tackled: (renewable)(bio) energy communities, energy efficiency, multiple benefits, RES, RHC, women, empowering people, energy behaviour, new trends of energy consumption (digitalisation, circular economy and more). To bring content to the discussions, our initiatives will present tools and models, one stop shops, awareness raising and nudging campaigns, showcased through inspirational presentations, a poster session and a field visit (Belgian energy community).

This event will provide an opportunity for attendees to learn about the latest developments in these areas and exchange ideas and best practices. Both days complement each other and provide a comprehensive overview of the current state of research and policy recommendations in the energy field.

Venue: Atelier 29, Rue Jacques de Lalaing 29, 1000 Brussels

Target audiences:

Energy experts, researchers, energy communities, policy makers, industry
